The mail also brought the details of the complete defeat of a band of 2,450 Colombian revolutionists under General Maril at the town of Anapoyma by the government forces. The insurgents had previously occupied the town of Giradot on the Magdalena river, which is small but important as being a railroad terminus.

It is stated that 10,000 Colombian troops are guarding the border, in command of General Gonzales Valencia, who was formerly minister of war in the Colombian cabinet.

Switzeriand, has created considerable comment. The excuse of sickness is nowhere entertained seriously. Taken in conjunction with the sudden detention in Shanghai of the explatory mission to Japan, it is believed to indicate fresh complications with reference to the signing of the protocol in Pekin. The German papers, which comment in a guarded way, suggest that the delay of Prince Chun is due to an intimation from Emperor William as to certain matters of ceremony and etiquette with which Prince Chun is unable to comply without permission from the Chinese court.

It is said that at least ten days will elapse before Prince Chun's expiatory mission arrives here. All the elaborate preparations for the reception of the prince at Orangeri, Potsdam, have been stopped. Several papers express a hope that he will now be given simple hotel accommodations instead of palatial quarters that were being prepared.
